WHAT TEACHERS SAY ABOUT US

Mr. Jha tried to eradicate the fear of Mathematics and instill confidence in the students. They could improve their calculation speed and numerical skills. He assured the students that the ancient Indian mathematics is useful for everyone – students, professionals, teachers, parents and the young and old.

Ms. Poonam Dhawan (Principle)
Dalhousie Hilltop School, Dalhousie

Mr. Prince Jha who encouraged the students not to stick with any one method given in the text book but think differently to solve their problems in other quick ways. It is definitely a good thing to organize such type of workshop which will help to make mathematics popular in student and this will also help the overall in academic.

Dr M Kasturi (Principal)
Birla Balika Vidyapeeth, Pilani, Rajasthan

Vedic Maths Workshop organized by Vedic Math School is Very Useful for All Students Special for School Students and Competitive Exam Aspirants. Course Syllabus and Training Material was exceptionally great and helped the student to solve problems with ease. I always recommend my student to get training in vedic mathematics.
